Therefore, it is in Your own interest to see that You renew the Policy before it expires.

**18. WHAT IS CONTINUITY BENEFIT?**

There are certain treatments which are payable only after the Insured Person is continuously covered for a specified period. For example, Cataract is covered only after twenty four months of continuous insurance. If an Insured took a Fresh Policy in October 2020, does not renew it on time and takes the Policy only in December 2021, and after that renewed it on time in December 2022. In this case any claim for Cataract would not become payable, as the Insured person was not continuously covered for twenty four months. If, the Insured had renewed the Policy in time in October 2021 and then in October 2022, then the Insured would have been continuously covered for twenty four months and therefore the claim for Cataract in the Policy beginning from October 2022 would be payable. For other benefits under the Policy such as cost of health checkup, continuous Insurance is necessary. Therefore, You should always ensure that you pay Your renewal Premium before Your Policy expires.

In case the insured is having more than one policy, the Cumulative Bonus shall be reduced from the policy/policies in which claim is made irrespective of number of policies.
